After an emphatic 2023 that saw a career-spanning The Very Best Of 1989 - 2023 release, as well as one of the standout Pyramid Stage sets at Glastonbury, Texas and legendary American songwriter & pianist Spooner Oldham will release their first joint album The Muscle Shoals Sessions - out March 29, 2024.

Recorded at the renowned 'Fame Recording Studio' in Muscle Shoals, Alabama, during the summer of 2022, the album features twelve of Texas' greatest hits, and two covers ('Would I Lie To You' by Charles and Eddie and 'Save The Last Dance' by The Drifters) - reimagined and laid bare. Stripped back to their bare bones, guided by the soulful voice of Sharleen Spiteri, accompanied by the delicate piano lines of Spooner Oldham, the songs simply shine in this format and prove their worth as sheer standalone timeless classics.
