

Peter Hammill - Incoherence

Scritto da addetto stampa

Domenica 15 Settembre 2024 20:04 -

Originally released in 2004, 'Incoherence' was formed of 14 songs that were all linked together to form one continuous piece of music, the first time in many years that Peter Hammill had taken this approach. All the pieces had a common lyrical focus on miscommunication and failures of language. Upon its release, the album was highly praised by both fans and critics and is one of Peter's most acclaimed later works.
